

Eatock Primary School Privacy Notice for the School Workforce

Those employed to teach, or otherwise engaged to work at, a school or a local authority

Under data protection law, individuals have a right to be informed about how the school uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about **the school workforce**.

We, Eatock Primary School, are the 'data controller' for the purposes of data protection law.

The personal data we hold

Personal data that we may collect, use, store and share (when appropriate) about the workforce includes, but is not restricted to:

- Personal information (such as name, address, next of kin, employee or teacher number, national insurance number)
- Relevant medical information
- Special categories of data including characteristics information such as gender, age, ethnic group
- Contract information (such as start dates, hours worked, post, roles and salary information)
- Work absence information (such as number of absences and reasons)
- Qualifications (and, where relevant, subjects taught)

Why we collect and use this data

We use school workforce data to:

- Enable the development of a comprehensive picture of the workforce and how it is deployed
- Inform the development of recruitment and retention policies
- Enable individuals to be paid
- Comply with the law regarding data sharing

Our legal basis for using this data

We only collect and use workforce personal data when the law allows us to. Most commonly, we process it where:

- We need to comply with a legal obligation
- It is necessary for the performance of a contract
- It is necessary under employment law

Less commonly, we may also process personal data in situations where:

- We have obtained consent to use it in a certain way
- We need to protect the individual's vital interests (or someone else's interests)

Where we have obtained consent to use personal data, this consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

Some of the reasons listed above for collecting and using personal data overlap, and there may be several grounds which justify our use of this data.

Collecting this information

Whilst the majority of information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with data protection legislation, we will inform you whether you are required to provide certain school workforce information to us or if you have a choice in this.

Data collection requirements

The DfE collects and processes personal data relating to those employed by schools (including Multi Academy Trusts) and local authorities that work in state funded schools (including all maintained schools, all academies and free schools and all special schools including Pupil Referral Units and Alternative Provision). All state funded schools are required to make a census submission because it is a statutory return under sections 113 and 114 of the Education Act 2005

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The department has robust processes in place to ensure that the confidentiality of personal data is maintained and there are stringent controls in place regarding access to it and its use. Decisions on whether DfE releases personal data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested; and
- the arrangements in place to securely store and handle the data

To be granted access to school workforce information, organisations must comply with its strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
